About Manito Park

The Parks and Recreation Department maintains Manito Park's 78 acres of native and cultivated landscape and 20 acres of world class botanical gardens. Comprised of five major garden areas, the Nishinomiya Tsutakawa Japanese Garden, Duncan Garden, Rose Hill, Lilac Garden and Ferris Perennial Garden, Manito Park is nationally recognized for its diverse horticultural displays. Established in April 1904, the Park has evolved from an undeveloped recreational area with a few flower beds, picnic spots and a zoo to one of Spokane's primary showplaces. Other Manito Park features include the Duck Pond, a favorite of children who enjoy watching the ducks; the Park Bench Café, open in the summer months for light meals; Loop Drive and Bridge offering majestic views of the Rose Garden; Upper and Lower Playgrounds – a favorite gathering spot of children; and the large basalt rock office building built in 1912. Central to the Park is the Gaiser Conservatory where beautiful flowing displays change seasonally.
