Locating the Fright Haunted House

The *Riverfront Fright Haunted House* is located in the East pavilion building. This space was recreated after Expo 74 to house the *Spokane Story* – a fully automated presentation detailing the history of Spokane. Upon the passing of this attraction, the space was used for various attractions and most recently was home to the KZZU/Muscular Dystrophy Haunted House which closed in 1995. The majority of the space has remained unused since with the exception of the front entrance which currently is home to the park technicians shop and the SR2 Scream Machine attraction.
